PROFILE SUMMARY

Motivated aspiring software developer proficient in fundamental web development and server-side languages. Skilled in object-oriented programming and creating practical, user friendly and responsive applications. Completed intensive sixteen week full-stack software engineering program and six month cybersecurity system administration certificate. Analytical, precise and solution driven. Organized and collaborative with strong oral and written communication skills.

TECHNICAL SKILLS

JavaScript ES6, Python, React, HTML, CSS, SQL, Mongo DB, Express, Node.js, Git Version Control, VS Code, Jupyter Notebook

TECHNICAL PROJECTS

Pong! *Per Scholas Software Engineering Project*

- Collision based game written in plain JavaScript, HTML and CSS. Features three levels of difficulty. Fully responsive for mobile devices. Users have the options to select background color, toggle sounds and music. [Source code](#).

Open Peaks *Per Scholas Software Engineering Project*

- Single page React web application. Utilizes two RapidAPI endpoints to fetch data and render relevant data to clients. Features beautiful parallax effect using npm react parallax package. Fully responsive. [Source code](#).

Open Peaks Version 2 *Per Scholas Software Engineering Project*

- Full stack application built with MongoDB, Express, React and Node.js (MERN). Utilized CRUD operations and RESTful APIs. Users can create an account, log in and create a list of resorts to track conditions. Fully responsive. [Source code](#).

EDUCATION

Software Engineering Certificate October 2023

Per Scholas, National Capital Region

Cybersecurity System Administration Certificate December 2022

Awarded by a consortium of universities and colleges funded by a grant from the National Security Agency.

Bachelor of Science, Hospitality Management March 2009

Lyceum of the Philippines University

WORK EXPERIENCE

Mandarin Oriental Hotel and Salamander Hotel, Washington, D.C. September 2017 – June 2023

Assistant Purchasing Manager

Created scripts that improved month-end processes by 75 percent. Supervised a staff of three purchasing agents. Responsible for \$1 million in annual procurement. Managed inventoried assets worth more than \$300,000.

REECO, Tel Aviv, Israel November - December 2021

Consultant

Advised a Software as a Service (SaaS) start-up on corporate procurement processes in the U.S. market. Identified pain points and proposed solutions. Provided feedback on product branding and user interface design.

Arts Club of Washington, Washington, D.C. February 2011 - September 2017

Assistant Operations Manager

Managed service operations at a large, private membership club. Led a staff of up to 15 employees, emphasizing superior customer service.
